

## CLAYTON NFP

An agricultural / horticultural adjuvant containing 96% pinene oligomers. **Adj No. 0834**

### Clayton NFP contains pinene oligomers

#### SIGNAL WORD : WARNING

**H315 Causes skin irritation**

**H317 May cause an allergic skin reaction**

**H400 Very toxic to aquatic life**

**H410 Very toxic to aquatic life with long-lasting effects**

P261 Avoid breathing dust/fume/gas/mist/vapours/spray. Wear respiratory protection (vapour mask).

P280 Wear protective gloves. Manufacturer/supplier or the competent authority to specify type of equipment.

P302 + P353 If on skin: Wash with plenty of soap and water.

P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.

P362 Take off contaminated clothing and wash before reuse.

P391 Collect spillage

P501 Dispose of container as hazardous waste

**To avoid risks to human health and the environment, comply with the instructions for use**

The Control of Substances Hazardous to Health (COSHH) Regulations may apply to the use of this product at work.

### IMPORTANT INFORMATION

#### FOR USE ONLY AS AN AGRICULTURAL/HORTICULTURAL STICKING AND WETTING AGENT

Apply as a tank mix with approved pesticides within label recommendations.

Maximum dilution rate when used as an adjuvant : 220ml in 100L/ha of water.

**READ ALL PRECAUTIONS BEFORE USE**

UN3082

**Conditions of Supply:** all goods supplied by us are of high quality and we believe them to be correct but, as we cannot exercise control over their storage, handling, mixing or use, or weather conditions before, during and after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded, and no responsibility will be accepted by us or resellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods. . \* Clayton batch numbers have complete traceability back to the original manufacturer's batch numbers and are available to CRD on request. Clayton NFP with Adj. number 0834 has been confirmed by CRD to be identical to the reference product Adj No: 0635.

## **SAFETY PRECAUTIONS**

### **Operator protection**

Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment:

WEAR SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACESHIELD) when handling the concentrate. However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

WASH CONCENTRATE from skin or eyes immediately.

AVOID ALL CONTACT BY MOUTH AND WITH EYES

WASH CONCENTRATE from skin and eyes immediately

WASH HANDS AND EXPOSED SKIN before eating and drinking and after work.

IF YOU FEEL UNWELL seek medical advice, show label where possible.

### **Environmental protection**

DO NOT USE with any pesticide applied in or near water.

VERY TOXIC TO AQUATIC ORGANISMS. MAY CAUSE LONG TERM ADVERSE EFFECTS IN THE AQUATIC ENVIRONMENT

### **Storage and disposal**

KEEP OUT OF REACH OF CHILDREN.

WASH ALL PROTECTIVE CLOTHING thoroughly after use especially the insides of gloves

KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDINGSTUFFS

KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.

EMPTY CONTAINER COMPLETELY and dispose of safely.

DO NOT RE-USE CONTAINER for any purpose.

This material and its container must be disposed of in a safe way.

## **DIRECTIONS FOR USE**

**IMPORTANT: This information is approved as part of the Product Label. All instructions within this section must be read carefully in order to obtain safe and successful use of this product.**

Clayton NFP is an adjuvant for use with listed products which gives weather-proofing anti-transpirant and anti-drift benefits for use with approved fungicides and insecticides. Clayton NFP can also be used with all approved glyphosate formulations. Clayton NFP polymerises to bind the pesticide to the target crop foliage within one hour of drying.

Follow all operator protection instructions for the pesticide. Where the personal protective equipment specified on the adjuvant label is different to that specified on the pesticide label, the highest level of protective equipment must be worn.

### **USE WITH GLYPHOSATE :**

**Situation :** wheat, barley, oilseed rape, all edible crops (stubble), all non-edible crops (stubble), non-crop production, permanent grassland (destruction), rotational grass (destruction).

Clayton NFP is authorised for use at rates up to 0.22% water volume (220mls/100L of water) with label rates of all approved glyphosate formulations.

Follow the statutory conditions of use of the glyphosate product for all application timings.

### **USE WITH FUNGICIDES AND INSECTICIDES :**

**Situation :** all edible crops and ornamental crop production.

Clayton NFP can be applied with all approved fungicides and insecticides on all edible crops up to 30 days before harvest. For ornamental crop production follow the statutory conditions of use of the pesticide.

Use Clayton NFP at 180ml/ha with approved fungicides and insecticides in water volumes of 100 to 200 litres/ha.

Follow the statutory conditions of use of the fungicide / insecticide products.

### **USE AS AN ANTI-TRANSPIRANT:**

When used solely as an anti-transparent in the absence of pesticides, apply Clayton NFP at a rate of 1.0L/ha in sufficient water to cover the target (normally 200L/ha). In cereals, application should be completed by early to mid-booting stage.

**FOLIAR NUTRIENTS :**

Clayton NFP may be used with foliar nutrients. Use 180ml/ha in water volumes of 100 to 200 litres/ha. Follow the label instructions for use of the foliar nutrient products.

**CAUTION:** DO NOT USE in tank mixture with adjuvant oils or surfactants. Only use Clayton NFP within the approved recommendations of the pesticide label. ALWAYS read the pesticide label.

**MIXING:** Half fill the sprayer with water. Add the recommended amount of pesticide and thoroughly mix by agitating. Add Clayton NFP to half-filled spray tank. Continue agitating while filling and spraying. After use, rinse tank, lines and nozzles with water and TANK CLEANER immediately.
